

Berkowitz Orthodontics 2.0

...The New Normal: READY, SET,GO!!

To our Patients, Families and Friends

Over the past 6 weeks, our Berkowitz Orthodontics Team, have planned and worked hard to create the safest environment possible, as we return to a “new normal”.

We can't wait to see you ..as we start this new beginning.

Now permitted by government authorities, and our own commitment to the highest standards of safety, we have incorporated many new Social Distancing Standards. We will be re-opening(slowly and cautiously)starting on May 11th.

Return to Normal Scheduling Process:

Kindly begin to call our office to schedule, reschedule or set up New Patient Evaluations starting on May 5th!

Initial Appointments will begin on May 11th

We will certainly try to facilitate all appointment requests...we know and hope you will be understanding with our staff during this process as they try to make things convenient for all.

New procedures will be provided to assure safety. Before your appointment kindly check our website: Berkybraces.com, to download a procedural document, an “informed consent” document, and a “supplemental health questionnaire”. Please review and complete these documents and be sure they are brought to our office at your next appointment.

Thank you for your patience and support....we look forward to returning to the “New Normal for Berkowitz Orthodontics 2.0”

Remember, together we will win as one!

Dr. Jackie Berkowitz
